

Press release 2 September 2010

Systemair receives further orders for infrastructure projects in India

Systemair has received three orders worth together approximately 14 million SEK in India. In India there are a number of ongoing major infrastructure projects. Ten new airports will be built and 35 will be updated/upgraded.

Kolkata Airport is one of India's largest airports. Systemair delivers a variety of ventilation products to an order worth approximately 5 million SEK, and delivery of products will start at the beginning of November.

Delhi Metro Rail Cooperation and **Delhi Airport Metro Express Line** orders are linked to the breakthrough order we had to Delhi Airport in 2009. Ventilation products for a value of approximately 9 million SEK delivered to these two projects.

"-There are a number of major infrastructure projects in India where we see a great potential to contribute and deliver our products. These are three prestigious orders that clearly strengthens our position in India", says Systemairs CEO Gerald Engström.
