

Systemair streamlines production in North America

Systemair's North American company Fantech streamlines production and logistics.

Fantech has a production plant located in New Brunswick, Canada and a mounting plant in Florida. In order to get a better use of the production capacity in the modern manufacturing facility in Canada, all mounting will take place there from February 1st 2008.

- By coordinating all production to Canada and move the distribution to Cincinnati, we will do substantial savings within production as well as within the logistics field, says Gerald Engström, CEO Systemair.

Systemair in brief

Systemair is a leading ventilation company with its main activities in Europe and in North America. The company turned over 280 MEUR during the financial year 2006/2007 and has more than 1700 employees.
